Original List compiled by **Conrad Tremblay, L'Assomption, Quebec, Canada**  
 Catalog Numbers according to: Johnson J.C. and Tomasson G. Canadian Stamps with Perforated Initials.  
 Unitrade Press, Toronto. 1985. 4<sup>th</sup> Edition

**Canada - Governmental and Semi-Official Perfins on Jubilee Stamps**

The use of perfins on Government postage was begun in 1923. The 5-hole OHMS (5 pins on the 'H' and 'M') perforations were used on the 1935 Silver Jubilee issue.

Wrigley's "Catalogue of Canadian Official Stamps" lists 8 different layouts of the "OHMS" perforation. These layouts are the result of the manner in which the stamp sheet was fed into the perforating machine.

Official Jubilee perfins are catalogued from Type A to Type H.
